75M children in Europe: undiagnosed vision issues

In adults 20% prevalence

152
Million children
in Europe (*)

(*) Source:
World Health Organization Global Health

15 (**)
Million children
have **severe visual
dysfunctions**

That is
1 in **10**

(**) Source:
American Academy of Optometry;
European Academy of Optometry;
British Council of Optometry.

50%
Of those 150 million
are still **undiagnosed**

Affects to reading problems

Confused with Dyslexia and ADHD

Children who see double, have an inability to focus
and when reading their eyes jump around.

With Visual
Dysfunctions

Current diagnostic/treatment clinical process

Current clinical treatment solutions: Outputs take **subjective measurements** and have **low accuracy**

Take
6 - 12
months

They require
at least **one 60**
minute session
per week

Easy aid for the specialist All in One
