New plant of **4 200 m²** (one production line, an R&D center and a quality laboratory)

Saint-Paul-en-Jarez (42)

Production capacity of **1 000 tons** (per production line)

up to **6** production lines

EUROPEAN
PLASTICS
PACT

Lactips designed pellets CareTips[®], a natural polymer, ready-to-use

100% bio-based
ingredients

Twin screw
extruder

Final product:
Pellets

Plastic industries

Brands/End-
Users

Goal : become a **world wide** raw
material producer

Market Segmentation & Drivers

Film (100% CareTips®)

- *Labels, Soluble wrapping ...*
- The only water-soluble biodegradable film

SAM: 590M€

Paper (10% CareTips®)

- *Routing film, Food packaging, Methanizable bags ...*
- Facilitates recyclability of complex packaging

SAM: 1 320M€

Blend (25-50% CareTips®)

- *Injected SUP, Golf tees, Closing rings...*
- Boost biodegradation

SAM: 280M€

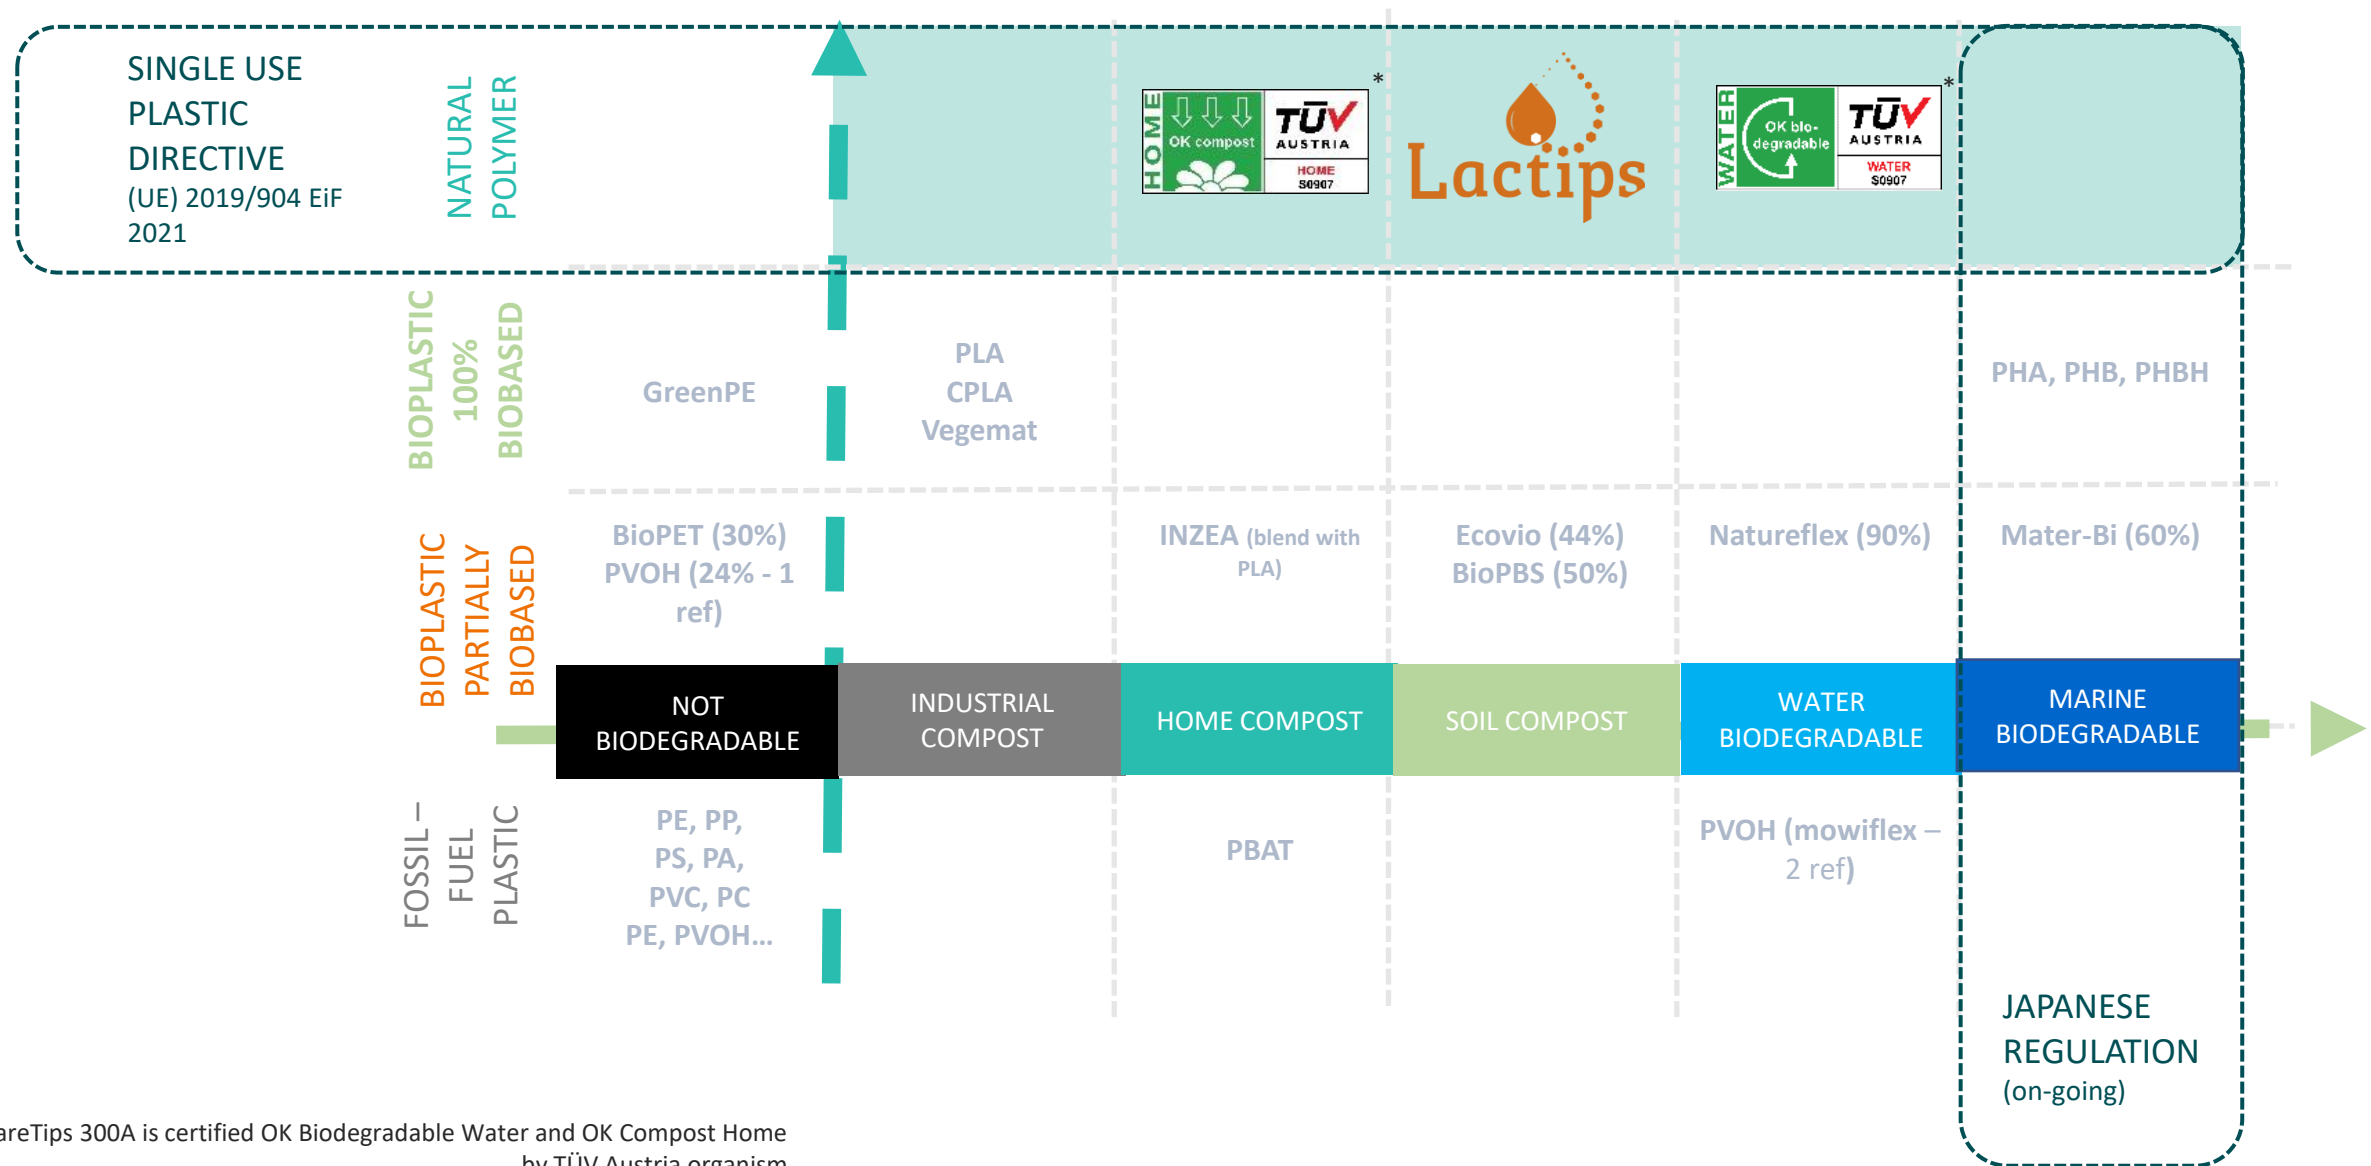

Pellets (100% CareTips®)

- *Seeds coating, Adhesive, Painting, Glue, Paper ...*
- Micro-plastic free

SAM: 2 000M€

Lactips position among bioplastics

*CareTips 300A is certified OK Biodegradable Water and OK Compost Home by TÜV Austria organism

From an innovative start-up to an industrial company

Finances – New round of €12M minimum

“ At Scent Emotions we are aware that ecology and environment are important claims today. Especially for our customers.
This is why, together with Lactips, we decided to go further in the scented polymer technology, to create ECO-SAP-B1, the first scented polymer made of 100% natural ingredients. ”

Scent Emotions

“ We consider LACTIPS' products as a relevant business opportunity aligned with our strategy in the field of « sea soluble » products. ”

H. Sakanashi, General Manager of Itochu,
global distributor
